Course Fee: \$299 + GST

Course Duration: 6 hrs (2 half days)

## Course Objective

This Adobe Illustrator course is an introduction to the basics of graphic design and illustration with Adobe Illustrator and will allow you to create and edit simple artwork and designs. This session introduces the program at a beginner level by covering the differences between bitmap and vector images, the Illustrator environment, and how to navigate around your document easily, menus, tools and palettes, shapes and colours, and utilizing the pen tool. Upon successful completion the individual should be able to:

- Understand the fundamentals of computer graphics
- Get to know the workspace and panels
- Set up a document
- Understand paths and shapes
- Work with Bezier paths to draw simple shapes
- Use the coloring tools
- Add pictures and graphs to a document
- Understand how to create type and wrap it around objects
- Understand how to use layers
- Save and export your work
- Use keyboard shortcuts to improve workflow

## Prerequisites

You need a working knowledge of your computer and its operating system, including use of a mouse, standard menus and commands.

## Delivery Method

Instructor led, group-paced, classroom-delivery learning with hands-on activities.

\*We also offer one-on-one on-site training

***We provide manuals with each course with practice exercises and free support on information covered in the course.***
